

## Ideation Phase

### Define the Problem Statements

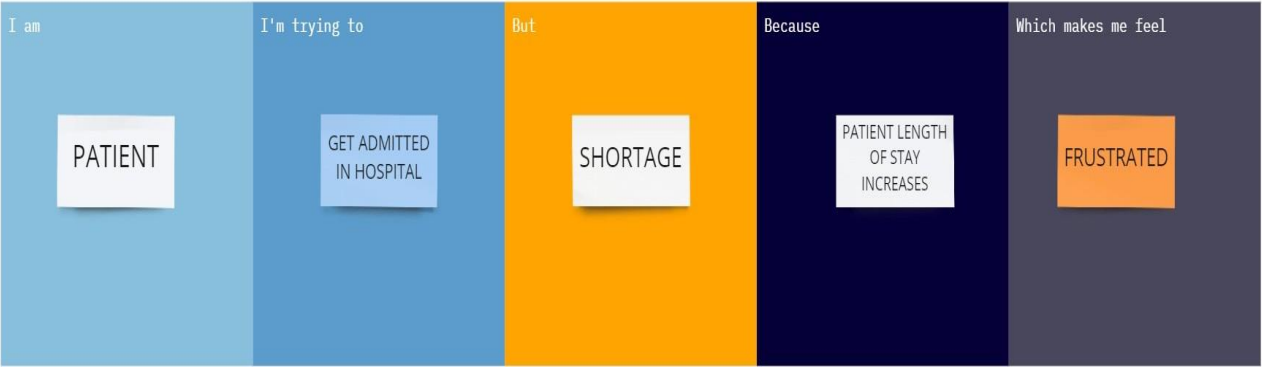

Date	8 September 2022
Team ID	PNT2022MID15567
Project Name	Project – Analytics for Hospitals' Health-Care Data

#### Patient Problem Statement Template:

Create a problem statement to understand your patient's point of view. The Patient Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated Patient problem statement allows you and your team to find the ideal solution for the challenges your Patients face. Throughout the process, you'll also be able to empathize with your Patients, which helps you better understand how they perceive your product or service.

QUESTION	DESCRIPTION
Who does the problem affect?	Patients(covid-affected, primary care, emergency care, long term care), hospital management
What are the boundaries of the problem?	The boundary contains all activities with the primary purpose of improving, maintaining, and preventing the deterioration of the health status of persons and mitigating the consequences of ill-health through the application of qualified health knowledge
What is the issue?	Prolonged stay in hospitals makes the patients feel uncomfortable both mentally and physically and also affect their day-to-day activities .
When does the issue occur?	The issue occurs when the patient is in critical condition and in the situation to get admitted.
Why is it important that we fix the problem?	Prolonged stay in acute hospitals increases the risk of hospital-acquired infections in older patients and disrupts patient flow and access to care due to bed shortages.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Patient	Get Admitted in hospital	Shortage	Patient of stay increase	frustrated
