

Define CS, fit into CC	<div>1. CUSTOMER SEGMENT(S)<div>CS</div><p>Who is your customer? i.e. working parents of 0-5 y.o. kids</p><p>Hospitals,Medical professionals and hospital staffs are the customers here.</p></div>	<div>6. CUSTOMER CONSTRAINTS<div>CC</div><p>What constraints prevent your customers from taking action or limit their choices of solutions? i.e. spending power, budget, no cash, network connection, available devices.</p><p>Limitations for my customer to buy/use my product or services are</p><ol style="list-style-type: none">1. Difficulty in migrating from manual process because they are used to manual process so are unable to speedily cope with the new system2. Fear of security breach3. High cost of software development and deployment4. Lack of IT-friendly medical personnel5.Huge influx of patients visiting hospitals</div>	<div>5. AVAILABLE SOLUTIONS<div>AS</div><p>Which solutions are available to the customers when they face the problem or need to get the job done? What have they tried in the past? What pros & cons do these solutions have? i.e. pen and paper is an alternative to digital notetaking</p><p>The solutions available are</p><ol style="list-style-type: none">1. Pen and paper method in rural small health cares, which needs to be maintained, manual works, slower and time consuming process.2. Hospital management system which contains registration. storing details.</div>	Explore AS, differentiate
	<div>2. JOBS-TO-BE-DONE / PROBLEMS<div>J&P</div><p>Which jobs-to-be-done (or problems) do you address for your customers? There could be more than one; explore different sides.</p><p>The main jobs to be done are</p><ol style="list-style-type: none">1. Resource allocation2. Improved patient care3. Avoid errors and track every single details4. Improve data security and retrieve ability5. Enhanced decision making in clinics6. Easy access to patient data7. Schedule duties to staffs</div>	<div>9. PROBLEM ROOT CAUSE<div>RC</div><p>What is the real reason that this problem exists? What is the back story behind the need to do this job? i.e. customers have to do it because of the change in regulations.</p><p>The main causes are</p><ol style="list-style-type: none">1. Huge influx of patients visiting hospitals2. Time consuming to collect, store patient data3. Lack of security, inconsistency in data entry4. Prone to damage and being misplaced5. Hard to make changes, editing problems6. Limit communication and collaboration7. Long process to analyse and allocate jobs8. Lots of manual work</div>	<div>7. BEHAVIOUR<div>BE</div><p>What does your customer do to address the problem and get the job done? i.e. directly related: find the right solar panel installer, calculate usage and benefits; indirectly associated: customers spend free time on volunteering work (i.e. Greenpeace)</p><ol style="list-style-type: none">1. The customer should quit the existing manual works and move for advanced techniques2. Use hospital managements systems3. Purchase products or services that stores, maintains and process the data4. Use analytics5. Use advanced technology to analyze and work on patients data</div>	
Focus on J&P, tap into BE, understand RC				Focus on J&P, tap into BE, understand RC
Identify strong TR & EM	<div>3. TRIGGERS<div>TR</div><p>What triggers customers to act? i.e. seeing their neighbour installing solar panels, reading about a more efficient solution in the news.</p><p>The triggers for my customers are</p><ol style="list-style-type: none">1. Facing the existing challenges, and difficulties2. Looking at other sectors growing3. Advancements and growth in technology4. Increased productivity from hospital management system5. Increased analytics work</div>	<div>10. YOUR SOLUTION<div>SL</div><p>If you are working on an existing business, write down your current solution first, fill in the canvas, and check how much it fits reality. If you are working on a new business proposition, then keep it blank until you fill in the canvas and come up with a solution that fits within customer limitations, solves a problem and matches customer behaviour.</p><p>The answer is to accurately predict the Length of Stay(LOS) for each patient on case by case basis so that the Hospitals can use this information for optimal resource allocation and better functioning. This parameter helps hospitals to identify patients of high LOS risk at the time of admission. Once identified, patients with high LOS risk can optimise their treatment plan to minimize LOS and lower the chance of staff/visitor infection. Also, prior knowledge of LOS can aid in logistics such as room and bed allocation planning. An informative, creative dashboard can be created to present the data and utilize it for prior proper planning and resource allocation.</p></div>	<div>8. CHANNELS of BEHAVIOUR<div>CH</div><div>8.1 ONLINE</div><p>What kind of actions do customers take online? Extract online channels from #7</p><div>8.2 OFFLINE</div><p>What kind of actions do customers take offline? Extract offline channels from #7 and use them for customer development</p><div>8.1 ONLINE</div><p>Customers can purchase the service/product and use it to store patients data regularly, maintain their details, create dashboards and work on it online efficiently and effectively</p><div>8.2 OFFLINE</div><p>By Using the collected data, customers can interpret, analyze, and utilize the data to allocate resources, schedule jobs to staffs, do planning for proper management of hospital</p></div>	Identify strong TR & EM

<div><div>4. EMOTIONS: BEFORE / AFTER</div><div>EM</div><div>How do customers feel when they face a problem or a job and afterwards? i.e. lost, insecure > confident, in control - use it in your communication strategy & design.</div><div>Before</div><div><div>1. Frustrated, confused</div><div>2. Inefficient time management</div><div>3. Poor resource allocation, staffing</div><div>4. Worried about huge stuff of work, workload</div><div>5. Work pressure</div></div><div>After</div><div><div>1. Secured, find it easy, efficient and reliable</div><div>2. Efficient time management</div><div>3. Better resource allocation</div><div>4. Less manual work</div><div>5. Need to develop technical knowledge</div></div></div>
